

How to get more Google reviews

The cheapest marketing most shops ignore.

02

Timing beats everything

Ask at peak gratitude — the moment the job's done and the customer's happy.

03

Make it one tap

Text the direct review link within the hour. Don't make them search for you.

04

Ask everyone

Only asking happy customers is 'gating' — against Google's rules. And never pay for reviews.

05

Make it a habit

Add the ask to the end of every job + your invoice.
Steady trickle beats a one-time burst.

The full system.
