

Is Angi worth it for contractors?

The honest math most lead sites won't show you.

02

They sell the SAME lead to 5–12 of you

Your \$35 lead is really $\$35 \times$ the 8 other trucks racing you to the phone.

03

Real cost per BOOKED job: \$1,430–\$2,500

Once you factor the low close rates on shared leads. A job won organically? ~\$290.

04

You're renting, not building

Stop paying and the leads vanish. You bought at-bats, not an asset.

05

What to do instead

Own your Google presence, systematize referrals, and capture the homeowners already on your site.

Run your own number.
