

Why cheap leads cost the most

Shared vs exclusive, in real dollars.

02

The '\$35' shared lead

Sold to 8 pros. ~1-in-8 close. Real cost per job: hundreds — plus the race to the phone.

03

The '\$90' exclusive lead

Only yours. Close ~1-in-3. Often CHEAPER per booked job than the 'cheap' one.

04

Shared leads train shoppers

Five calls in ten minutes = a bidding war you win only on price.

05

Exclusive = a real conversation

No competition on the line. You sell value, protect margin, book the job.
