

Your Google Business Profile is your storefront

And most contractors leave it half-empty.

02

Fill in EVERY field

Services, service areas, hours, description. Google ranks complete profiles over lazy ones.

03

Photos = trust + ranking

Add job photos weekly. Fresh-photo profiles get more calls and direction requests.

04

Post like it's social

A Google Post every week — offers, tips, finished jobs.
Free space on the results page.

05

Reviews are the ranking fuel

Steady, recent reviews with keywords ('water heater install') push you up the map pack.

Own the map.
